Survey No.—110, 1-2.
Total extent—3 acres and 16 guntas.
Assessment—Rs. 11.
Extent submerged in tank bed—21 guntas.
Boundaries—
East—Survey No. 91.
West—Survey No. 111.
North—Survey No. 88.
South—Survey No. 107.

No. R. 5262—*Agri.* 626-03-7, *dated 15th December* 1904.

The Government of His Highness the Maharaja of Mysore are pleased to direct the following alterations being made in the Rules for the Maintenance of Tanks, published under the late Chief Commissioner's Notification No. 65, dated the 2nd October 1873 :—

(i) In Rule 1, omit the words "and he is to be assisted in this duty by the hobli shekdar."

(ii) At the end of Rule 3, add the following clause :—

"For the purposes of this rule one rupee of the dry or mohatarfa assessment shall be regarded as one-third of a rupee of wet and garden assessment."

(iii) In Rule 4, insert the words and letter "as detailed in Appendix A" between the words "maintenance" and "will."

(iv) In the first and second sentences of Rule 5, substitute the word "Patel" for "village authorities."

(v) In Rule 6, substitute the words "Patel is" for the words "village authorities above mentioned are."

(vi) In Rule 8, substitute the words "October and January" for December and March," and the words "a responsible officer" for the "Peishcar, Sheristadar, or Taluk Mestri," and add the word and letter "Appendix B" after the word "Form" omitting the letter "A."

(vii) In Rule 11, substitute the word "Taluks" for "Sub-Divisions."

(viii) In the heading of the form of Inspection Report appended to the Rules, substitute the word and letter "Appendix B" for "Form A," and in the heading of column 12 of the form, substitute the words "condition of subsidiary works including feeders and distribution channels" for "Signature and remarks," and open another column, 13, for "Signature and remarks."

X. The Rules altered as above will be as follows:—

Rule 1.—The enforcement of the Rules for Tank Maintenance is entrusted to the Patel of the village to which the tank or tanks are attached.

Rule 2.—The individuals to be held responsible for the maintenance and up-keep of the tanks are the Pattadars, Shikmidars, Inamdars and others holding lands attached to the village, either dry or wet; inhabitants of the village, and all others deriving any benefit whatever from the tank, either directly or indirectly.

Rule 3.—The proportion of work to be done by each of the above indicated individuals will be decided by the Patel and Shekdar, according to the amount paid by each to the Government for lands, houses, or other property etc., attached to the village—such proportion to be constant, no matter what quantity of work has to be carried out. Dissentients to have the ordinary right of appeal to higher authority. The proportion of the work to be done by Inamdars will be fixed in the same manner; their lands, etc., being valued at the same rates as those paid for similar property belonging to Sirkar raiyats.

For the purposes of this Rule, one rupee of the dry or mohatarfa assessment shall be regarded as one-third of a rupee of wet and garden assessment.

Rule 4.—The works falling under the head of Tank Maintenance as detailed in Appendix A will be ordinary earth and turf work, repairs of every description connected with the tanks and their subsidiary works; excepting such as may be specially exempted and noted in the tank book as to be kept in repair by Government.

Rule 5.—The above repairs shall, as a rule, be carried out simultaneously at periods to be fixed by the Patel; but when necessary (as in cases of damages done by rain, floods, etc.,) the requisition of the patel for immediate repairs must be at once attended to.

Rule 6.—In case of default by any individual in the execution of his obligations as above laid down, the patel is empowered and required to carry out the portion of the work that ought to have been done by the defaulter, by paid labor, the cost being recovered from the defaulter as a revenue demand.

Rule 7.—The village patel will be held primarily responsible that the tanks are maintained up to the standard laid down for each in the tank book, and it will be the duty of the Shekdar to satisfy himself, by personal inspection in each case, that this has been done.

Rule 8.—A regular inspection of each tank in his taluk shall be made annually, between the months of October and January by the Amildar himself, so far as is possible; otherwise by a responsible officer specially deputed for such duty by the Amildar, and the results of this inspection are to be entered in a register as per annexed form, Appendix B.

Rule 9.—Whenever a tank, on such inspection, is found not to be up to the standard, a second inspection is to be made of the tank prior to the end of April, by which time the repairs must be completed, failing which, the unexecuted repairs will be carried out by the Amildar and the cost recovered from the defaulters as a revenue demand.

Rule 10.—A duplicate copy of the register will be forwarded by the Amildar to the District Revenue Officer prior to the 1st June by which date all tank works should be completed.

Rule 11.—Assistant Commissioners in charge of Taluks or otherwise employed in Taluks are expected during the period of Jamabandi and on other convenient occasions, personally to inspect as many tanks as possible, and test the accuracy of the Taluk returns, entering the date of inspection and their remarks in the form attached to the tank book for that purpose. The result of their inspection will be communicated to the Deputy Commissioner at once on completion.

Rule 12.—Similar duties will be performed by the Deputy Commissioner who will be held responsible that the above mentioned rules are duly and intelligently carried out and not allowed to become a mere form.

Rule 13.—Works ordered to be carried out to any tank by an officer of the Public Works Department of the Engineer grade will be done at once on that officer's responsibility should any portion of such work form no part of the duty of the raiyats, the usual notification for sanction for the same will be submitted by the Amildar through the proper channel. Work considered requisite after inspection by an officer of the Public Works Department of the subordinate grade, will be reported by him without delay to his departmental superior, and in cases of urgency direct to the Amildar also.

APPENDIX A.

Showing the work to be done by raiyats.

1. To maintain the bund to the standard level and with the slopes specified.

Note.—The specification of the level and slope must be in accordance with the existing state of things and must be approved both by the Executive Engineer and the Deputy Commissioner of the District.

2. To fill up gullies or other inequalities caused by rain, the treading of cattle, etc., on the bunds of tanks and channels.

3. To check the growth on bunds of prickly-pear, and any similar rank and pernicious weed

4. To clear any underwood from the bunds of tanks wherever it may be injurious.

5. To clear and repair the earth-work of petty and branch channels, and clear away the accumulations in sluice and in all channels issuing from tanks, which obstruct the flow of water to the fields.

6. To keep in order the supply channels of tanks.

7. To watch the bunds of all tanks, during rainy weather, to turf the parts acted on by the waves, to help in opening and closing the sluice, and generally to perform minor duties of this nature in order to prevent breaches and other accidents.

APPENDIX B.

Inspection Report on the tanks in the_____ ___Taluk for the season ending_____.

Hobli.	Name of village.	Name of Taluk.	Number of tank.	Date of inspection.	By whom inspected.	Copy of observations made in tank book.
